At approximately 1953 hours, I arrived at the Southwest Key Program and made contact with security personnel. The security personnel advised me the incident occurred earlier in the day at approximately 1612 hours in Classroom D. I was advised the subject, Mauro Lopez, was escorted off of the property after the incident and is no longer working for the Southwest Key Program. The security personnel added the children in the classroom were watching a movie and Mauro was trying to open the door for children returning from a bathroom break. I then proceeded to watch the video and observed the following:

| NARRATIVE |
|--|
| On 09/21/2018, at approximately 1612 hours, Mauro was standing at the door of the classroom along a child, identified as years old), who was standing across from Mauro by the door. I observed Mauro attempting to open the door but was unable to because was leaning against the door on his left side. Mauro then used his left hand to grab right arm and pulled away from the door. This allowed Mauro to open the door and allow the rest of the children into the classroom. It is proceeded to return to his seat and no other interactions between and Mauro occurred. |
| After watching the video, I observed no criminal action had occurred during the incident. Security personnel advised me it was per the company policy staff members were not allowed to grab children in the manner observed in the video. Such action is not tolerated and staff members are normally terminated for the behavior. |
| I will not contact Mauro for further information because I did not observe any criminal behavior in the video. |
| While watching the video, my Axon Body-Worn camera was activated. |
| This report is for informational purposes only. |
| Nothing further. |
